

Recycling Facts...

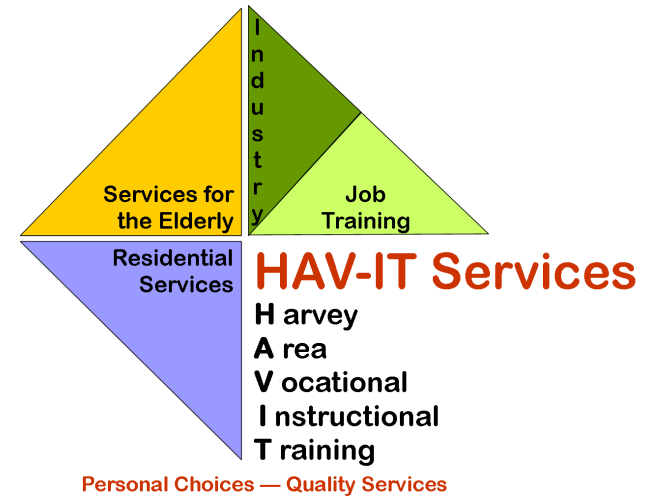

from North Dakota Dept. of Health Division of Waste Management

- The average person accumulates 4.8 pounds of waste per day. About 34.5% of that is recyclable.
- It can take up to 700 years for plastic to decompose (break down) in a landfill.
- PET plastic can be recycled into: clothing, fiberfill for sleeping bags, toys, stuffed animals, rulers and more.
- Twenty years ago it took 19 pop cans to make one pound of aluminum. Today it takes 29 pop cans.
- Paper is the most commonly accepted material in recycling. In most offices 80% of waste is paper.
- Glass is the hardest material to recycle due to variations in melting temps per type.
- Americans throw away enough steel each year, to continuously supply all the nations auto makers.
- Cardboard takes 3 to 4 months to break down in a landfill. Recycling 1 ton saves nine cubic yards of space.
- Recycling one aluminum can saves enough energy to run your TV for three hours.
